## Mouth Cancer Action Month

November is Mouth Cancer Action Month. Spotting the signs of mouth cancer early can boost survival rates from 50% to 90%. We check for signs during every oral health examination, a very important reason why it's so important to book your check up every six months.

Signs of mouth cancer can include:

- Ulcers that do not heal within 3 weeks**
- Lumps or swelling around the mouth, head or neck**
- Bleeding from the mouth or throat**
- Red or white patches in the mouth**
- Loose teeth or sockets that won't heal**
- Unexplained weight loss**

If you've spotted one of these signs get in touch to book an appointment today.

## *Join our Smile Celebration Evening!*

We're hosting our next Smile Celebration evening on 17th January 2024, with a champagne reception, for patients who have finished dental treatment with us recently!

**If you've reached the end of your treatment recently and you're thrilled with the results, why not join us to share your story over a glass of bubbles.**

On the evening a professional videographer will be available if you would like to help us with a video testimonial **to share your inspiring stories with us; what led you to consider treatment in the first place, how it went, and what your new smile means to you.**

[Click here to watch Dianna's inspiring treatment journey](#)

Our next champagne reception and testimonial recording will be on 17th January, and we'd love for you to attend! You are free to bring a friend or family member along.

Please email us at [business@dentalrooms.co.uk](mailto:business@dentalrooms.co.uk) to register your interest.
